

Abstract

Asses partner auditing Company Limited is the company that provides comprehensive accounting and financial services, taxation, auditing, business registration, submission of Business Development, so it is important to choose the proper, efficiency and special software for working smoothly conveniently an fast. For example Express Accounting is the software that works efficiently, accurately and easily for searching, so it makes us more confident that it is the standard software because it is well – know in many types of business. For this co-operative education, the researchers have been assigned to the record the credit sales and collection by Express Accounting

Express Accounting and Microsoft Excel may have errors information, so it may waste time for correcting that information, waste time of working hour. Then, there should have training of Express Accounting for new employees, and trainer can be the experienced staff or senior staff because it can help decreasing the expense
