First of all i would like to thank Allah the most beneficent and most merciful, who has provided me the courage and health to complete my work. Secondly i would like to thank my family back home and my brother who have supported and encouraged me for my work. My heartily appreciation to my little family of friends in Thailand and Malaysia; Ismail Nabe, Mohamed Nabe, Michael Slater, Kabinet Fofana, Famoro Keita. Special thanks to ISMAP support.

With my deepest gratitude to my supervisor Dr Vijit for his encouragement, motivation and help throughout the dissertation work, without his support it would be difficult to complete the work in limited time period. My special thanks to all the IMBA lecturers.

Last but not least i would like to thank all the respondents who participated in my survey and Siam University fellow students and to those who have directly and indirectly supported me.
