

ACKNOWLEDGEMENT

This research was finally completed under the guidance of my advisor Professor Dr. Jomphong. First of all, I would like to thank the mentor for his care and guidance during the writing of the paper. Whether it was at the beginning of thesis writing or the completion of the entire thesis, Prof. Dr. Jomphong put forward many valuable opinions and suggestions. His rigorous academic attitude and profound professional knowledge have benefited me throughout my graduate career. I would like to take this opportunity to express my sincerest thanks to my tutor. At the same time, I would like to thank my teachers and classmates for their enthusiasm in learning and living during my postgraduate study period. Besides, it is appreciated for people who helped me fill out the questionnaires. Finally, I am grateful to my family. Their support and understanding have enabled me to successfully complete my studies.
