Acknowledgment

Firstly, I'd like to show my deepest gratitude to my supervisor, who has walked me through all the stages of the writing of this thesis. It is her constant encouragement and guidance that inspire me all the time in the process of my thesis writing. Without her/his consistent and illuminating instruction, this thesis could not have reached its present form.

Second, I want to express my great gratitude to my principal of Siam University, the dean of Business Administration, and my reverent teachers who helped me a lot during these two years. All of you have taught me knowledge and how to be a helpful person to our society.

Finally, my thanks would go to my beloved family for their giving me loving considerations and great confidence in me all through my university career. I also owe my sincere gratitude to my friends and my fellow classmates who have given me their help and time in listening to me and helping me work out my problems during the difficult course of this thesis.
